------------------	-------------	--------------------

The School Board of the Canaan High School District, make this their 26th annual report by submitting the following:

The high school is approved at the present time on the condition that the work be kept up to the standard. The course approved by the State Superintendent to July 1, 1919, is as follows:

FIRST YEAR	SECOND YEAR	THIRD YEAR
Algebra	Geometry	Math. Review, Algebra
English (1)	English (2)	and Geometry
Latin (1)	Latin (2)	English (3)
Ancient History	French (1)	Latin (3)
		French (2)

This third year has been added on the advice and recommendation of the State Superintendent, without extra cost to the district. A fourth year can be added at a small expense if the town district of Canaan and the town of Orange would co-operate with the High school district and send their children here. If this could be done, many children in all the three districts could receive a four years' course in High school. Many of the people in all three districts can not afford at the high cost of living, to spend \$400 to \$500 a year to send their children away out of town to school. At a small expense for transportation and a small expense to each district, this matter can be brought about. The School Board of the Canaan High school district recommends this, and solicits the co-operation of Orange and Canaan to carry this recommendation into effect.

The jacketed stoves which were recommended by the State Board of Health and the State Superintendent of Schools, have proved a fine success, last winter being a good test. Franklin and other cities with furnaces were compelled to close schools during the winter of 1918, on account of not being able to keep the buildings warm. There was no time in that winter but what our rooms could be kept above 70 with the jacketed stoves.

The attention of the parents is called to the fact that average attendance counts on the amount received for state aid. Tardiness and non-attendance means the loss of dollars and cents to the district.

The standard of the lower schools was never better, the grades being rapidly brought up to the standard required by the city school. With our eighth grade in good standing, and with pupils from outside, there should be from fifteen to twenty in the first year High next year.

The high cost of books and supplies compels the School Board to ask \$100 more than usual in this department.
